We are dedicated to meeting our customers' commitments while enabling them to respond to and recover from disasters and build resilient communities. The company philosophy of collaboration and partnership underlies our deep history of trusted relationships.

2017-2018

CDBG Monitoring and Compliance

As a subcontractor for the Commonwealth of Pennsylvania, NMA designed and developed training and informational materials for HOME, NSP, and CDBG federal grant sources. Our in-depth regulatory knowledge allowed us to develop a grant monitoring tool to be used by all grantees and sub-recipients. NMA trained field staff for the state's efforts to perform program monitoring and compliance for more than 150 CDBG, NSP, and HOME recipients. In addition, NMA staff members conducted onsite monitoring and file audits for grant recipients throughout the western part of Pennsylvania.

“ NMA delivers to federal, state, and local agencies disaster recovery grant management support that provides a comprehensive, full life cycle solution. ”
