

STATE OF SOUTH CAROLINA CASE STUDY

Leverage NMA's strategic expertise and operational savvy

STATE OF SOUTH CAROLINA

- **DR:** Strategic review and guidance for policy and procedures for all disaster recovery projects
- **CRF:**
 - Administering the entire \$2B grant statewide
 - Providing technical assistance and program operations
 - Assisting with distribution of state-directed funding
 - Validating compliance for use and expenditures such as revenue loss, PPE reimbursement, etc.
- **CDBG-CV:**
 - Administering CDBG-CV grant on behalf of the state
 - Working with local counsels of government and non-entitlement counties to review eligibility and propose projects
- **ERAP:** Full administration and operation of the state's \$270M ERAP

We are dedicated to meeting our customers' commitments while enabling them to respond to and recover from disasters and build resilient communities. The company philosophy of collaboration and partnership underlies our deep history of trusted relationships.

2017-2018

Statewide Assistance

The NMA team provided the South Carolina Department of Commerce (SCDOC) with monitoring, compliance, and technical assistance support services to successfully complete a Disaster Recovery Compliance Assistance project.

“ NMA delivers to federal, state, and local agencies disaster recovery grant management support that provides a comprehensive, full life cycle solution. ”

We worked with grantees in twenty-two impacted counties to thoroughly understand current project position and compliance criteria before coming up with a plan. Based on our initial assessment, we developed an effective compliance and quality control monitoring plan for each project. Plus, our team provided technical assistance throughout the process.

Our partnership with the State of South Carolina enabled SCDOC to make the most of their grant money while staying firmly within regulations for funding.
