**RAD Success Story**

NMA is currently assisting a large agency in California with its public housing conversion under the Rental Assistance Demonstration program.

The first transaction successfully closed in 2017, and NMA will continue to provide services to oversee the entire relocation project as well as the conversion process for more than 2,500 households.

“ NMA delivers comprehensive relocation support from start to finish, creating a master plan, addressing community concerns, and facilitating move-in and move-out. ”
