HUD Announces New Module in Lead Safe Housing Rule Toolkit

On the <u>HUD Exchange News webpage</u>, HUD's Office of Lead Hazard Control and Healthy Homes (<u>OLHCHH</u>) <u>announced</u> that it has added the <u>Public Housing (Subpart L) module</u> to the <u>Lead Safe Housing Rule Toolkit</u>. The new module includes tools to help PHAs understand and comply federally assisted, pre-1978 housing with the federal lead rules. It includes links to handouts, information summaries, and sample recordkeeping documents, including required forms, for administrators, property managers, and tenants.

Subpart L covers residential properties under the U.S. Housing Act of 1937 but does not include housing assisted under Section 8 (Housing Choice Voucher program). If the unit receives Section 8 funding, visit Subpart M: TBRA.

The Lead Safe Housing Rule Toolkit includes sample forms, checklists, and flowcharts for HUD's Lead Safe Housing Rule to support healthy and lead safe homes. Practitioners will learn how to prepare to administer projects, implement key project tasks, and keep records for compliance.
