PIH Publishes Inventory of Projects Eligible for Operating Fund in 2023

In an [email](#) last Friday via HUD's Financial Management Division (FMD) [mailing list](#), HUD's Office of Public and Indian Housing (PIH) announced that it has published the inventory of public housing developments eligible for Operating Fund (OpFund) grants for the 2023 funding year in the [OpFund web portal](#).

According to the email, HUD will deploy the OpFund tools for the forms HUD-52723 and HUD-52722 based on the inventory. PHAs should review their inventory and contact their local field office to identify any corrections by **November 30, 2022**. This includes projects that should be added to the inventory because the projects are eligible for operating funds in CY 2023 and projects that should be removed from the inventory because the projects are not eligible for operating funds in CY 2023.

Additional information related to CY 2023 OpFund processing can be found on the [2023 operating fund grant processing page](#) at the [operating fund website](#).
