PIH Posts Explanation of Partial June, July, August, and September Obligations

HUD’s Office of Public and Indian Housing (PIH) has [posted a document](#) explaining public housing operating fund obligations for two weeks of June, July, August, and September 2024. According to the document, partial June, July, August, and September 2024 obligations are based on the interim eligibility determined after processing the 2024 operating subsidy forms. All operating subsidy obligations are cumulative, meaning that public housing projects are provided funding in the amount of nine twelfths of prorated eligibility.

For the June (two weeks), July, August, and September funding, the Department considered 2024 interim eligibility to provide for an interim proration level of approximately 98.78%. The final proration will reflect the difference in the amount of the actual eligibility for final approved PHA subsidy requests and the Appropriation Act. HUD plans to make this round of funding available through eLOCCS no later than June 1, 2024. The next round of funding is expected to be available in eLOCCS no later than October 1, 2024.
