HUD Publishes Correction to HOTMA HCV/PBV Provisions Final Rule

Today in the *Federal Register*, the Department of Housing and Urban Development ([HUD](#)) published a [correction](#) to its [final rule](#) titled “Housing Opportunity Through Modernization Act of 2016—Housing Choice Voucher (HCV) and Project-Based Voucher Implementation; Additional Streamlining Changes” that published on May 7, 2024. Specifically, the document corrects the following errors:

- In the final rule, certain amendments are delayed indefinitely. Initially, in the DATES heading, HUD incorrectly identified the delayed amendment to 24 CFR 983.157 as located in instruction 100. The correct instruction is 99.
- Amendatory instruction 64 incorrectly states the existing regulatory text in 982.402(b)(2) as “housing quality standards (HQS)”. In fact, the text to be replaced reads “housing quality standards”.
- 983.10 incorrectly contains paragraph (b)(3) twice, each with the same text. This paragraph should only be included once.
- 983.51(e)(2) incorrectly omits paragraph (ii) and instead contains two paragraphs designated “(iii)”, each with the same text. The first of the two paragraphs should be designated as paragraph (ii) and read: “The project meets the environmental review requirements at 983.56, if applicable; and”.
- The revisions to part 983, subpart D incorrectly excluded 983.157, which should have been removed. A subsequent instruction correctly adds a new 983.157, although it is delayed pending future publication in the *Federal Register*.
