PH PROGRAM NEWS

OCI Posts List of Capital Fund Awards by PHA and Development

On the [2022 Capital Fund Processing Information](#) webpage, the Office of Capital Improvements (OCI) has posted a [list](#) of capital fund awards by PHA and development. According to the webpage, this year, HUD has combined the PHA and development-level funding reports into a single Excel file. After you select a PHA code, the PHA-level information will display in rows 9 through 12, with the development-level details directly below, beginning with row 15. A note at the top of the spreadsheet states:

This tool is designed to provide information on the calculation of FY 2022 capital fund formula grants. Information is displayed at both the PHA-level and development-level. This tool replaces both the PHA-level funding report and development per unit funding report that HUD posted in past years. Please refer to the "notes and explanations" tab for answers to any questions you may have. If your question is not answered there, please email your local field office and copy PIHOCI@hud.gov.

You can find the list and other capital fund formula grant materials [here](#) at [OCI's website](#).
