PIH Posts Explanation of October and November Obligations

HUD’s Office of Public and Indian Housing (PIH) has [posted](#) a [document](#) explaining public housing operating fund obligations for October and November 2023. According to the document, October and November obligations are based on the interim eligibility determined after processing the 2023 operating subsidy forms. All operating subsidy obligations are cumulative, meaning that public housing projects are provided funding in the amount of eleven twelfths of prorated eligibility

For the October and November funding, the Department considered 2023 interim eligibility to provide an interim proration level of approximately 93.03%. The final proration will reflect the difference in the amount of the actual eligibility for final approved PHA subsidy requests and the Appropriation Act. HUD plans to make this round of funding available through eLOCCS no later than October 2, 2023. The next round of funding is expected to be available in eLOCCS no later than December 1, 2023.
